

FLEET ENGINEERS[®]

A TRAMEC COMPANY

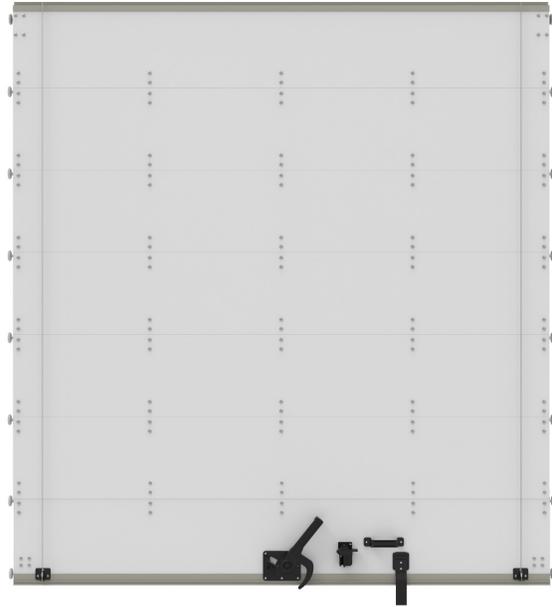

ComposiTrak[™] ROLL-UP DOORS

Engineered with advanced composite panels that resist denting, puncturing, moisture, and corrosion. This design offers lighter weight, greater strength, and easier handling, reducing wear and maintenance costs for fleets.

- Designed with revolutionary ArmorOne® Panels, the ComposiTrak Door is up to 80 pounds lighter than a traditional wood door
- Engineered to meet the demands of road transportation, not just lighter but stronger
- Proven durability with over 100,000 testing cycles without degradation
- Perfect balance of strength, weight, and savings
- Engineered, tested, and assembled in the USA!

ComposiTrak Roll-Up Doors are Lighter and Stronger with ArmorONE Panels.

Engineered to meet the demands of road transportation with ArmorONE®
